Date 3 December 1981

SUMMARY

   The IMAGE EVALUATION REPORT DATA SET program (IMG-EVAL-RPT) will provide
appropriate data on tape to the KGSSE. Each IMG-EVAL-RPT will query the
Installation Data File (IDF) records and retrieve photo references.

   This program should be started once per day (preferably sometime between
1800 and 0600 since the previous days records will be retrieved). It will be
started from the console by the operator.

   If IMG-EVAL-RPT program runs sucessfully it will generate a cable which is
sent to DATEX automatically. It will also generate a page of Summary Statistics
on the high speed printer. This list should be returned to the user. In the
event of failure to generate a report, generation shall commence from the end
point of the previous report (with no duplication of data). An error message will
be printed on the high speed printer. This should be returned to the user.

<u>U-1100/80</u>

Date <u>3 December 1981</u>

HIGH-SPEED PRINTER OUTPUT

Identification: Image Evaluation Report

                    1.   Summary Statistics
                    2.   Error Messages

Format:

Type of Form: 1471-1 pt.

Disposition:

Program <u>IMGRPT</u>
<u>U-1100/80</u>

Date <u>3 December 1981</u>

PROGRAM LOADING

Type of Program: BATCH from console

Base Address: N/A

ECRT:

General Equation - Computer Run Time is Variable

Sample Estimate - N/A

FINAL CHECK SUMMARY

1. Runstream started daily from console
   ST IMG-RPT
   or ST XSS*P$RUN.IMGRPT/XQT

2. Input Julian date from console in the form YYDDD.

3. Output listings returned to user.

4

IMGRPT

Program U-1100/80

Date 3 December 1981

NORMAL RUN INSTRUCTIONS

Initiation: ST IMGRPT or
ST XSS*P$RUN.IMGRPT/XQT

Monitor:

Message	Cause	Operator Action
Enter Julian date in form YYDDD		Enter Julian date
Program FIN	End of run	Return list to user

5

Program IMGRPT
         U-1100/80

Date 3 December 1981

ABNORMAL RUN INSTRUCTIONS

Messages: Message will appear on printer for user, and console for
operator

Message	Cause	Operator Action
Unsuccessful IERRUN		Return list to user
